Join the [MnSHEP Listserv](#) and receive quarterly newsletters and information on upcoming webinars and workshops.

Mission

The mission of the Minnesota Simulation for Healthcare Education Partnerships (MnSHEP) is to promote simulation excellence by providing evidenced based resources and support for educators. MnSHEP fosters academic/practice partnerships to promote research and provides collaborative learning opportunities in simulation.

Vision

Our vision is to develop leaders in health care whose actions, discoveries, and voices will strengthen and transform the health of individuals and communities worldwide.

The International Nursing Association for Clinical Simulation and Learning (INACSL)

INACSL announced the release of a new INACSL Standard of Best Practice focused on Simulation Operations (SimOps).

The INACSL Standards of best Practice provide educators, clinicians, and reserachers with best practices to design, conduct and evaluate simulation-based experiences.

The INACSL Standards of Best Practice include:

- Simulation Design
- Debriefing
- Facilitation
- Outcomes and Objectives
- Participant Evaluation
- Professional Integrity
- Simulation-Enhanced Interproffessuional Eucation (IPE)
- And SimOps

For more information and to download free electronic versions of the INACSL Standards of Best Practice: Simulationa rticles, including the new SimOPs article visit www.inacsl.org/INACSLStandards

Moulage Corner

**By Jeanne Cleary
MA, RN**

Black Tarry Stools

INGREDIENTS

Dark chocolate pudding
Red, blue and green food coloring
Strawberry preserves and a little artificial blood.

INSTRUCTIONS

Mix this all together and can be used on a chux, bedpan or diaper. Add the artificial blood around the stool once you have it in place to show more blood around the edge.

Manikin Mailbag

**If you have a question

newsletter, please email
Rose.Raleigh@century.edu
or colleen.royle@mnsu.edu**

Dear Manikin Mailbag:

I have a family member in my simulation but I don't know how to prepare them for the role. Can you help me?

Sincerely, Fred Facilitator

Dear Fred Facilitator,
Criterion 4 of the Facilitation Standard describes delivering cues using a variety of methods including comments from a patient or a family member. A standardized actor can be used to provide cues to manage the unexpected events. Instruct your family member to remain in their role and react as though the patient is truly their family member. Consider a cue card for your family member to help guide them through key areas of the simulation focused on learning outcomes.

Good luck, Manikin Mailbag

NLNTEQ BLOG

[The NLN TEQ blog](#) is a resource brought to you by the NLN Center for Innovation in Simulation and Technology.

TEQ contributors blog on topics that keep nurse educators up-to-date with the latest innovations in simulation, e-learning, telehealth and informatics.

Try This: Using Quick Response (QR) Codes in the Simulation Lab

By: Jean Ellen Zavertnik and Kristen Lawson

While the newer simulation software allows the programmer to input media files to display lab values, x-rays, and video clips during a patient scenario, there are times when a high-fidelity manikin is not being utilized for the simulation. During these times, a QR code might be used to reveal certain aspects of the patient's condition or provide resources not otherwise available in the laboratory setting.

Archived Webinars on the MnSHEP Website

The following Webinars are archived on the MnSHEP website. Complete the survey at the end of the webinar to receive a Certificate of Completion.

- * Use of Theory in Simulation
- * The Use of Virtual Simulations in your Nursing Program (2016)
- * Virtual Simulations Past, Present and Beyond (2017)
- * Use of an Unfolding OB Case while Implementing Multi-Modalities
- * Feel the surge? Using Simulation to Birth RN's into the Obstetric Specialty
- * Standardized Patients: A Critical Resource in Human Simulation
- * Interprofessional Simulation for Workplace Violence in the Emergency Room
- * Using Simulation for Faculty and Preceptor Development
- * Arise Project: Augmented Reality Integrated Simulation Education
- * Simulation in hospice and homecare: Are students ready for the challenge?

INACSL STANDARD/Debriefing

- * Pre-briefing and Debriefing
- * Pre-Briefing: Setting the Stage for Success
- * Debriefing in Simulation: Setting the Standard

INACSL STANDARD/Facilitation

- * Setting the Stage for Success as Facilitators

Minnesota Conferences/Workshops/Courses

Health Educators Conference R3: Research, Resilience, Renewal

(Registration closed)

April 18-20th Wilmar, MN

Pre-conference: Simulation to Replace Clinical

Wednesday, April 18 from 1 to 4:30 pm

HealthPartners Simulation Facilitator Workshop [Link to registration](#)

This 3-day comprehensive program is designed for individuals who desire more in-depth knowledge and skills in effectively incorporating simulation into all levels of healthcare education from undergraduate programs to staff development.

Content is based on the current science and standards of best practices from simulation literature, as well as the expertise and experience of Certified Healthcare Simulation Educators (CHSE) of an accredited simulation program. The workshop blends didactic content with group discussion, learning activities, and hands-on practice. During the program, participants will be given opportunities to learn the theoretical foundation, create & facilitate scenarios, operate mannequins of varied manufacturers, practice facilitation techniques, and lead the debriefing.

Workshop facilitators will share helpful tips on equipment maintenance, including removing

adhesive from mannequins. Information on policies and program operations will be valuable for the novice as well as individuals interested in pursuing certification or program accreditation

March 28-30, 2018; May 2-4, 2018; September 12-14, 2018; December 12-14, 2018

HealthPartners Simulation 2018 Regional Conference [Link to registration](#)

This 1.5-day conference is an opportunity to connect with colleagues throughout the simulation community and provide a forum for discussion and exchange of information among simulationists in both the healthcare delivery and academic settings. It is designed for simulation educators, technical/operations specialists, & program administrators as well as individuals interested in learning more about simulation. Abstract Submissions open on April 2nd.

Dates: October 26 & 27, 2018

Hennepin County Medical Center [Link to registration](#)

Simulation Facilitator Course: During this course, learners will demonstrate knowledge and skills needed to develop and facilitate an effective simulation scenario as well as debriefing knowledge and skill by utilizing the "Debriefing with Good Judgment" approach during one simulation scenario.

Dates: January 29, 2018; March 9, 2018; May 11, 2018; July 16, 2018; September 21, 2018; November 5, 2018

Simulation Debriefing Basic Course: During this course, learners will demonstrate debriefing knowledge and skills by utilizing the "Debriefing with Good Judgment" approach during facilitation of two simulation scenario debriefing sessions.

Dates: January 15, 2018; March 5, 2018; May 25, 2018; July 5, 2018; September 7, 2018; November 9, 2018.

Mayo Clinic Simulation Instructor Development: Comprehensive Course

[Link to registration](#)

This three-day multidisciplinary interactive course will develop instructors for simulation-based education. Participants learn the principles of experiential learning including types of simulation, course design and debriefing strategies.

Learners practice these concepts with the assistance of experienced faculty. Enrollment is limited to encourage maximum engagement of all attendees.

Rochester, Minnesota: May 21-23, 2018 and September 17-19, 2018

National Conferences

2018 Association of Standardized Patient Educators (ASPE) Annual Conference

[Link to Conference](#)

The Association of Standardized Patient Educators (ASPE) Conference is designed to engage, showcase creative works, stimulate professional development, and provide on-going opportunities to network and collaborate.

June 17 – 20, 2018 in Kansas City, Missouri

Human Patient Simulation Network (HPSN) SOUTHERN REGIONAL SIMDAY

[Link to Conference](#)

Join us for a FREE SimDay held at the outstanding facilities of the College of Health Sciences, Samford University. The Southern Regional SimDay will seek to provide interactive workshops, hands-on simulation training and techniques, and networking options with

other sim users! Gather with experts, enthusiasts, and eager innovators from the expanding world of healthcare simulation to experience, contribute and learn together at the HPSN Southern Regional SimDay. Cost: FREE
April 6, 2018 in Birmingham, Alabama

HPSN UK 2018 [Link to conference](#)

Join us in June to celebrate and network with educators, technologists, technicians, facilitators, nurses, doctors, midwives, allied health, patient safety leads et al, to celebrate the technology and education behind using this pedagogy to improve and enhance patient care. The two-day conference is free to attend and welcomes all-comers to healthcare simulation.

June 20-21, 2018 in Nottingham, UK Cost: FREE

HPSN World 2019 [Link to conference](#)

In 2019 we'll be looking for you to join us in Orlando and share your passion for healthcare education through simulation. No matter your background, no matter your experience, HPSN World never fails to inspire.

February 26-28, 2019 Orland Florida

IMSH 2019 Conference [Link to conference](#)

Save the Date! January 26-30, 2019 - San Antonio, Texas

International Nursing Association for Clinical Simulation and Learning

[Link to conference](#)

This conference, a leading forum for simulation aficionados, researchers, and vendors providing the ideal environment to gain and disseminate current, state-of-the-art knowledge in the areas of skills/simulation operations and applications in an evidenced-based venue. Healthcare professionals will have the opportunity to network with colleagues and exhibitors, discuss best practices as relates to competencies, safety and quality performance indicators, and advance the science of simulation.

June 13-16, 2018 Sheraton Centre Toronto Hotel, Toronto, Canada

International Pediatric Simulation Symposia and Workshops (IPSSW)

IPSSW2018!

[Link to Conference](#)

Do not miss the 10th International Pediatric Simulation Symposia and Workshops (IPSSW2018) keep improving pediatric healthcare through simulation with professionals from all around the world.

May 14-16, 2018 in Amersterdam

NLN Learning to Use Debriefing with Good Judgment (CMS/NLN) [Link to conference](#)

Using a blended learning model, the course comprises two hours of online work and an eight-hour workshop highlighted by a half-day at the state-of-the-art simulation lab on George Washington University's Virginia Science and Technology Campus. Optional learning resources will be provided through a learning management system.

Date 2018: TBD

NLN/Boise State University Simulation Conference 4th Biennial [Link to Conference](#)

Exploring current and future trends in simulation will provide participants with innovative

strategies in designing and delivering simulations. There will be something for everyone in health care education from academia to practice settings.

May 17- 19, 2018: Boise State University, Boise, Idaho

2018 Institute for Simulation Educators (ISE) [Link to Conference](#)

This three and a half day instructive and interactive forum is designed for faculty beginning work in simulation and searching for a solid foundation in simulation education.

University of Maryland School of Nursing

July 23-26, 2018 Baltimore Maryland

Simghost2018 [Link to Conference](#)

The 2018 SimGHOSTS events will provide a meeting place for you to exchange ideas and network with technical peers as well as receive specialized training in the design, selection and application of healthcare simulation technologies. You will also have opportunities to meet with simulation-based vendors to engage with the latest in healthcare education technology.

July 31st - August 3rd, 2018: Memphis, Tennessee

SimOps 2018 – Level Up: Invent Your Success [Link to conference](#)

Society for Simulation In Healthcare

July 26-28, 2018: Portland, Oregon

SSH/INACSL Regional Workshops [Link to Regional Workshops](#)

Simulation Regional Workshops on the guidelines of the NCSBN National Simulation Study

April 20, 2018: Moon Township, PA

May 18, 2018: JUMP Simulation Peoria, IL

SUN Simulation User Network [Link to conference](#)

The Simulation User Network conferences offer best practices for simulation training programs across all healthcare disciplines.

April 30 - May 2, 2018: Chicago, IL

Memberships to Consider

[Link to: Society for Simulation in Healthcare \(SSH\)](#)

SSH's mission is as a leading inter-professional society that advances the application of simulation in healthcare through global engagement. SSH Membership is \$185.00 for full membership and less for students or retired members. Once you are a member you have free access to the [Live Learning Center](#) offering more than 110 online ACCME accredited healthcare simulation courses, 24/7

Includes subscription to bi-monthly journal, *Simulation in Healthcare*, and information on professional certification and accreditation for your sim center.

[Link to: International Nursing Association of Clinical Simulation and Learning \(INACSL\)](#)

Individual membership \$140. Institutional memberships also available.

Membership benefits to INACSL includes webinars, peer reviewed journal, *Clinical Simulation in Nursing*, helpful online resources and links, simulation scenarios, and more.

[Link to: National League for Nursing Simulation Innovation and Resource Center \(NLN SIRC\)](#)

The Simulation Innovation and Resource Center (SIRC) project, is a collaborative alliance between the NLN and Laerdal Medical, whose purpose is to develop a community of nurse educators who can effectively use simulation to promote and evaluate student learning and who dialogue with one another in an effort to advance simulation in nursing education.

[Link to: The Global Network for Human Patient Simulation – The Association of Standardized Patient Educators \(ASPE\)](#)

In today's evolving educational landscape, it's important to stay connected to emerging trends and research in standardized patient education and simulation modalities. Connect with your international professional community as an ASPE member! ASPE membership is tailored to meet the needs of individuals and institutions. (Individual membership is \$135, institutional memberships also available).
